is a unique show featuring comprehensive products, innovation, design and services in landscaping and gardening. Designed to cover all sectors of landscaping and gardening business, Expo UrbanScape & Greenery 2018 aims to serve the growing market as a professional business platform for manifactures, traders, exporters, importers, distributors, designers, architects up to individual customers to exchange ideas and newest innovation.

Why Expo UrbanScape & Greenery ?

Inspired by the beauty of nature it self, landscaping and gardening business are growing steadily, with everybody wanting to take at least a little piece of nature with them. From a considered luxury, landscaping and gardening had taken on to be an expected necessity. In addition, landscaping and gardening raises the value of the property thus becoming a key aspect in any development and municipalities.
