

The Archipelago Flower and Fruit Festival (FBBN) was held again after 2 years of being abolished due to the Covid-19 pandemic. This activity began in July 2022 which began with the Floriculture Podcast and continued with the National Agrotourism Seminar, Indonesian Fruit Workshop, and FBBN Peak Day which was held on 21-23 October 2022 in Bogor City Square by bringing in more than 15,000 visitors.

In this FBBN event, the Indonesian Flower Association (ASBINDO) acted as the organizing partner to decorate several spots in the FBBN area using floricultural products produced by ASBINDO members. The beauty of the 2022 FBBN decoration can be seen in the main gate decorations, photo booths in the form of FBBN inscriptions with fruit and flower decorations, aisles with hanging flowers, as well as main stage decorations with various colors, which are attractive and instagramable spots for visitors.
