

Valentine is identical to the day of love and time to give each other gifts or gifts for someone who loved (parent, friend, husband, wife, or lover). The past decade in Indonesia valentine synonymous with chocolate and roses. Nowadays regarding with green issues that also increase since the last five years, it's worth trying to interpret the day of love (Valentine Day) by giving plants as a gift.

Some of plants that could be Valentine gifts are: Caladium, hypoestes, aglaonema, or indoor plant with good looking, chic, and sweet form. Below are some examples of plants that can be used as a Valentine gift. Gift of perennial plants may be more pronounced because of the philosophy of the plant can be applied in a loving relationship. Plants need to be watered and fertilized to thrive. Love also needs trust and understanding to keep it alive.
