There are so many different products available in the floriculture sector; it is difficult to keep up. We have compiled a list with more than 700 commercial floriculture products, some more popular than others. You can also download the update plant variety list that we've compailed.ÂÂ We realize this list is not complete at the moment and we will do our utmost to add varieties during time.ÂÂ

Do you have any additions? Share them with your fellow members. Click here to send you information. Together we can create the most accurate and up to date list. In the promotion section of this site you will find more information on the most
important commercial floriculture products
, including information on suppliers.
