

Gompi is a variant of the Chrysanthemum flower which is currently a favorite of practitioners and flower lovers. Besides having a beautiful flower shape, with an orderly arrangement of petals that makes it look so unique. Gompi also has very beautiful color variations. Currently, the color trend is still limited to white, lime/lemon, pink, peach and orange. The color of the gompi type is quite distinctive and the same color type is not found in other types of flowers. Gompi will be more attractive when combined with other types of flowers such as lilies, roses, calla lilies, etc., which are adjusted to the desired color tone.
