Ornamental plants are no longer just decorative elements in the house, but have become part of the modern lifestyle. The beauty and tranquility provided by ornamental plants make them increasingly popular, especially in providing a refreshing and natural atmosphere indoors.

Ornamental plants not only beautify the layout of the house, but have also opened the door to their use as creative interior design elements, including in cafes and other public places. Pictum Coffee & Kitchen is a modern cafe that not only serves delicious coffee, but also tries to create a comfortable and aesthetic atmosphere. Houseplants provide a refreshing natural touch, creating a warm and welcoming environment.

Cafe located on Jl. Raya Ragunan, Pasar Minggu, South Jakarta is even scattered with ornamental plants in every corner. Starting from plants with large leaves to plants with unique and interesting small leaves. The use of ornamental plants in cafes not only beautifies the appearance, but also increases comfort for visitors. Minaqu Home Nature is the main supplier that fills all the ornamental plants in the interior of Pictum Coffee & Kitchen. Thousands of plants fill the cafe. Busy urban lifestyles often disconnect us from nature. Using ornamental plants can certainly be an ideal way to overcome this, bringing a dash of nature into a modern living space.
